These instructions help users if they do not need to connect to DH1 anymore, but were previously connected to DH1. Any applications or settings provided by Duke may be removed from a device once users chose to disconnect. Users will no longer be able to connect to Duke Health’s WiFi once the device is disconnected.

1. Select **Start** or type in the search bar **School**.

2. Disconnect the work/school account in **Settings** > **Accounts** > **Access Work or School**.
